

To whom it may concern,

J Walker Enterprises (dba Morning Sun Maintenance LLC.) has been performing work for Nemos on the beach doing maintenance and emergency repairs. The company has been outstanding with the attention to detail and the response time necessary to maintain our restaurant. In our area of business every minute that passes with equipment down is money out of the register. Morning Sun has saved us thousands by responding quickly, fixing our issues promptly, and charging us fairly. I would highly recommend Morning Sun Maintenance to any company, for any area that they may be of service to.
